

Recommended Resource for Families

There are approximately 936 weeks from the time a child is born until they grow up, graduate, and move on to whatever is next. Since your time with your kids is limited, consider counting down the weeks. Why?

When you see how much time you have left, you tend to do more with the time you have now. Because what you do as a parent *every week* matters more than you think.

EASY ENCOURAGEMENTS TO HELP YOUR CHILD START THEIR DAY

As a parent, some of the most important things you do for your child don't happen in a single day. You make small deposits in their life week after week—over time. That's why the Parent Cue App gives weekly cues to help you make the most of the time you spend with your kid or teenager.

WHEN YOU NEED SOMETHING MEANINGFUL TO TALK ABOUT ON THE WAY TO SOCCER PRACTICE

These weekly cues will change with your child, staying relevant to their phase of life—from babies to high school. Each cue aligns with content developed by Orange, a non-profit ministry that creates resources for churches. We believe the best way to use this app is to be in a faith community so there are multiple voices in your kid's life reinforcing the same ideas. Our app will connect you with Bible stories and verses to talk to your child about, and we'll cue you with words to say and things to do connected with the naturally occurring times that already happen every day.
